Your “little baby” is off to preschool. Her world will get so much bigger. She’ll need you to guide her.

**Your child’s health**

**The Well Visit**
Take your child to the doctor for check-ups and blood pressure readings when he turns 3 and again when he turns 4. Ask your doctor about shots that your child may need before starting school. And catch up on any missed vaccinations.

Let your doctor know if your child cannot:
- Jump in place.
- Scribble holding a crayon between his thumb and fingers.
- Use sentences with more than 3 words.
- Socially connect with other children.

**The Dentist**
Let your child brush her teeth. Then help her to make sure her teeth get cleaned. She should:
- Brush teeth twice a day (especially at night).
- Use a child-size toothbrush with a pea-size bit of fluoride toothpaste.
- Visit the dentist.

**Nutrition**
At this age, offer your child the same foods, at the same times, as you eat.

Choking is still a hazard, so avoid things like candy and cherries with pits. Be careful with:
- Grapes (cut them in half).
- Hot dogs (slice in half the short and the long way).
- Raw vegetables like carrots and celery.
- Spoonfuls of peanut butter, especially crunchy.

Your child’s health, continued

Sleep  
*Goodbye Nap time.* Between 3 and 4 years, children often give up their afternoon naps. On days when your child doesn’t nap, be prepared for some fussiness. You may have to put him to bed earlier that night.

*Hello Bedtime Battles.* Your child may begin to fight going to bed. To help:
- Try to stick to the bedtime routine and set limits such as how many books you will read each night.
- Give your child choices. Let him pick out his pajamas and books to read.
- Help him feel safe. Use night-lights, security blankets, or stuffed animals.

Toilet Training
At this age, some toddlers are toilet trained. Some are not. Either way, help her have success:
- Dress her in clothes that are easy for her to pull up and down.
- Use the potty right before bed. And make sure she can get to the potty at night.

Nurturing your child

Sharing  
- *Show How to Share.* Give your child a toy in return for one of his toys. And let him see you share with others.
- *Choose Toys to Share.* Before a friend comes over to play, put away toys that your child does not want to share.
- *Practice.* Play indoor and outdoor games where you take turns, like board games or hide-and-seek.

Media Time
Limit media watching (TV, computer, video games, etc.). 1 hour per day is more than enough.

Your child’s safety

In the Car  
Check your state laws to see when your child is ready for a booster seat, usually not until age 4.
